

Minnesota Family Institute Voter Guides

The Minnesota Family Institute publishes a Voter Guide for each of the even year elections held in Minnesota because we believe voters need to be informed on issues and how the candidates stand on those issues. Please encourage the candidates in your area to fill out the questionnaire that will be sent to them by us prior to the next election.

The voter guides that we publish qualify to be acceptable for use by non-profit 501c3 organizations and corporations.

This means:

- It contain a broad base of issues
- There is no detectible pattern as to indicate what the Minnesota Family Institute believes are the correct answers,
- There is no indication as to whether an answer is correct or in correct.

In producing our voter guides we use issues that will show a difference between candidates and that have been voted on since the previous election in the legislature. If there are particular issues that concern you that fit the above criteria please feel free to let us no by E-mailing at voterguide@mfc.org.
